Renewable Energy Systems

International Summer School

August 29th – September 10th, 2021

FH Münster University of Applied Sciences invites students from all over the world to join a summer school on “Renewable Energy Systems”.

www.fh-muenster.de/summerschools

FH MÜNSTER
University of Applied Sciences

Program

During the summer school, professors of several engineering departments teach, providing an interdisciplinary technical flavour to the following topics:

- Climate and resources
- Wind Energy
- Photovoltaics
- Hydro-Electric Power
- Geothermal Energy
- Power Electronics and Smart Grids
- Electrochemical Energy Storage

The side program implies technical and cultural excursions as well as various free time activities.

Fees

- 50 € for students from partner universities
- 100 € for students from other universities

Participation

Undergraduate students in their last academic year and/or master students in the field of electrical engineering, mechanical engineering, applied physicists, or similar.

Since all courses are taught in English, a level of B2 is required. No previous knowledge of German is necessary.

Participants of the summer school receive a certificate and 3 ECTS. Recognition must be clarified with the home university.

Further Information & Application
